PROFESSIONAL SUMMARY

UX/UI Designer and Front-End Developer with 4+ years of experience across insurance, AI-driven platforms, and SaaS products, with a foundation in Industrial Design that shapes how I think about form, function, and user behavior. I bridge the gap between research and execution, from conducting user interviews and usability testing to shipping high-fidelity designs in Figma and building in code. My work is grounded in real user problems, not assumptions.

RELEVANT EXPERIENCE

- | | |
|---|---|
| UI Designer (Internship)
<i>Workland</i> | Oct 2025 – Jan 2026
<i>Montreal, Canada</i> |
| <ul style="list-style-type: none">Redesigned core ATS workflows for ATLAS (Talent Experience Management System used by SMEs to government entities), cutting cognitive load and improving efficiency for teams managing 100+ active requisitionsArchitected multi-stakeholder interfaces serving recruiters, hiring managers, and candidates by balancing enterprise security with SME usability across applicant tracking, CRM, and automated campaign managementShipped scalable design system components that improved recruitment velocity for 30+ enterprise clients, from Boolean search to chatbot pre-screening and third-party HR integrations | |
